Art Unit: 1722

The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The statement in the oath as to the error in the patent is not sufficient. The statement states terms have not been distinguished over the art. However, the instant claims have been further amended at this oath and the changes are not mentioned in the instant oath. Also, it is not clear as to the other terms that applicants feel have not been distinguished over the prior art of record.

Claims 1 to 11, 14 to 39 and 41 to 57 are rejected as being based upon a defective reissue oath under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

Response to Applicants' Arguments

Applicant's arguments filed November 22, 2006 have been fully considered but they are not persuasive.

The prior art rejections have been withdrawn in view of the instant arguments and translations concerning the MgO orientation.
